The coming of Chairman Hitchcock of the republican national committee to consult with the President is an open question. Mr. Hitchcock did not appear today and reports from New York indicate that he may have decided to defer his call until a later date. The recent letter of Joseph Daniels, of the democratic publicity bureau, inquiring why the Department of Justice hasn't proceeded against certain alleged illegal corporations, is to be given immediate attention by the Attorney General.

Fox, secretary to the Senator. Senator Rayner yesterday visited the Sarah Leigh Hospital, where his son was kept Monday night. The meeting there of father and son was friendly.

## WARRANT FOR THOMAS.

The first intimation that direct proof had been secured of the man who fired the shot which seriously, if not fatally, wounded N. W. Gregory, at Arvonis, Buckingham county, Va., last Saturday, was made known in Richmond yesterday, when news from the seat of the trouble with the Thomas-Zimmerman gang of outlaws brought the information that a warrant has been sworn out for William Thomas, charging him with the crime.

Acting in compliance with orders from Governor Swanson, Commonwealth Attorney Edward W. Hubbard yesterday directed Sheriff Williams to summon 80 men, break them into squads of 20, and to proceed at once against the outlaw camp.

News from Arvonis is to the effect that a warrant has been sworn out for William Thomas, one of the outlaws, charging him with shooting N. W. Gregory, on Saturday night.

A telegram from Arvonis last yesterday at noon stated that the newspaper correspondents have been ordered out of the town. There is a rumor that they are to be shot on sight. The reason for the threat is believed to have resulted from the publication of the plans and movements of the outlaws as well as the citizens, and the temerity of the reporters in plunging into the fastnesses of the outlaws.

The situation has been intensified by the reports of last night that Charles Newton had been shot at Paynes Station by his brother-in-law, Benjamin Zimmerman, alleged leader of the outlaw gang.

## MR. BRYAN.

Declaring that every disinterested voter knows that large contributions have been used to secure mortgages upon officials, William J. Bryan last night issued a statement criticizing the adoption by Mr. H. Taft, of President Roosevelt's announced view on the subject of the publicity of campaign contributions.

Mr. Taft, says Mr. Bryan, "makes the same charge the president does—the astounding charge that the voters are liable to be misled by the knowledge (as to the amounts and sources of campaign contributions) must be kept from them. Mr. Bryan adds:

"I insist that this is an insult to the intelligence of the voter and it does little credit to Mr. Taft's judgment of theme, to the men whom he is making his appeal," and says it is the right of the voter to know before the election who are contributing so that they may draw their own inferences as to the effect they may have on the candidate.

Judge Stockbridge announced that in addition to revoking Heper's license he would impose a fine of \$800 and costs. The fine was later reduced to \$750.

At the residence of Grover C. Hook, west Washington street, Hagerstown, Md., Monday night, a shot was fired through a window in the bedroom in which Mrs. Hook was lying seriously ill. The girls attended a picnic near Decatur, and on their way home released one of the cars on a gravity road, allowing it to run back several feet. ## Mack Attacks Sheldon.

New York, Oct. 2.—Attack by the democrats upon the corporation affiliations of George R. Sheldon, republican national treasurer, which was forecasted recently when it was learned that his record was being investigated for Bryan, really began today when Norman E. Mack, democratic national chairman, issued the following statement:

"The trust and corporation affiliations of George R. Sheldon, treasurer of the republican national committee, for the past ten years, makes interesting reading, in view of the recent developments in the campaign. I wish to recall in this connection that because of these affiliations, former Governor Odell, in 1902, refused to permit the party leaders to put Sheldon in nomination for the lieutenant governorship of New York."

"While the republican party has refused to endorse Sheldon for public office, he has been selected as campaign collector for the identical reasons which make him unavailable as a candidate."

"President Roosevelt has defended Sheldon and invited Mr. Du Pont to get out of the present tangle while Mr. Sheldon is at the present time intimately identified with no less than 17 corporations. One of these, the Bethlehem Steel Company, does not employ union labor and has opposed the organization of its employees for the past 16 years. Mr. Sheldon is a director of that company."

"Sheldon is also treasurer and director of the North American Company, capitalized for \$30,000,000, a company known as the mystery of Wall street. It is but a few years back since he was prominently identified with the 'whiskey trust.'"

Accompanying Mr. Mack's statement was a record since 1898, year by year, of Sheldon's corporation affiliations. Of these concerns he appears as a director of the majority, treasurer of many, and as vice president in some.

## The American Fleet at Manila.

Manila, Oct. 2.—The American fleet passed Corrigidor at the entrance to Manila bay at noon today. An escort of scores of various craft met the fleet at the harbor. There will be a water parade tomorrow and an official call from Governor General Smith.

The official time of the arrival of the fleet was given as three o'clock. There is an utter absence of fear of cholera among the men, and nothing would stop them more than to be permitted shore leave.

Tokio, Oct. 2.—Baron and Baroness Salto gave an elaborate dinner tonight in honor of the wives and daughters of the officers of the American fleet, who are awaiting the arrival of the fleet in Japanese waters.

The Tokio stock market was stronger today than it has been in a year, owing to the publication of optimistic stories regarding the future relations between Japan and America.

## Affairs in Persia.

Teheran, Oct. 2.—All hopes for relief from revolutionary outbreaks in Persia by means of the new parliament that will convene November 4, was dispelled today when the text of the proclamation calling the parliament was read by the people. Instead of the hope for grant of new powers to the deputies, the parliament will be conducted along the same restricted lines, and no relief is promised from the ills that have thrown the country into turmoil.

Louis Williamson, Miss Mary Garrison openly defied the court by tearing up one of her letters offered by the prosecution as evidence and handed to her on the witness stand yesterday. ## Democratic Prospects.

Lincoln, Neb., Oct. 2.—The reports at hand assert that the tour of the middle west by Judge Taft has not made the inroads into the Bryan movement that had been claimed by the republicans. Governor Burke, who is a candidate for re-election in North Dakota, is authority for the statement that so far as that state is concerned the Bryan movement has gained rather than lost ground through Judge Taft's visit.

In Minnesota, according to national Committeeman Lynch, the speech against the guarantee of bank deposits made by Judge Taft aided the democratic chances.
